## **UNDERWATER TREADMILL POLICY**

## For the safety of every patient, client, and employee at Sunset Hill Veterinary & Rehabilitation Center we ask that you review the following policy carefully. If you have any questions, please feel free to ask before signing.

- We request that patients have urinated and defecated prior to any underwater treadmill session. This will help to prevent any accidental soiling in the underwater treadmill.
- If your dog/cat has not defecated or has trouble defecating please let us know and we can determine if a fecal stimulation is needed.
- Please alert the technician if your dog/cat has any new illness (diarrhea, vomiting, lethargy) or injury (new lameness or open wound) as the underwater treadmill can exacerbate these potential problems. Depending on the issue at hand the technician may cancel the underwater treadmill session and continue on with exercises, massage, or laser therapy if this applies.
- If your dog/cat is experiencing diarrhea please call to reschedule the underwater treadmill session for a later date after the diarrhea has resolved.
- If your dog/cat defecates in the underwater treadmill there will be an extra charge of \$150.00 and the session will be terminated immediately at full charge.
- Patients will lose their underwater treadmill privileges after the third time they defecate in the treadmill.

I (client name/please print)	care giver of (pet name)	have
read, understand, and agree	to the stipulations in the underwater treadmill policy.
